-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

REPEATED REJECTIONS

1. The 35 U.S.C. 103(a) rejection of Claims 1, 5 - 6, 12, 15 - 17, 19 - 21, 23, 26, 32, 35, 37 and 39 as being unpatentable over Kudert et al (U.S. Patent No. 5,523,045) in view of Fukui et al (Japanese Patent No. 03041135) and Branch (U.K. Patent No. 2295617), of record on page 2 of the previous Action, is repeated.

ANSWERS TO APPLICANT'S ARGUMENTS

2. Applicant's arguments regarding the 35 U.S.C. 103(a) rejection of Claims 1, 5 - 6, 12, 15 - 17, 19 - 21, 23, 26, 32, 35, 37 and 39 as being unpatentable over Kudert et al (U.S. Patent No. 5,523,045) in view of Fukui et al (Japanese Patent No. 03041135) and Branch (U.K. Patent No. 2295617), of record in the previous Action, have been carefully considered but have not been found to be persuasive for the reasons set forth below.

Applicant argues, on page 2 of the remarks dated October 15, 2008, that the disclosure in Kudert et al of a thickness of 0.001 inch or less does not include a thickness of 15 microns because of fear of the layer becoming discontinuous or not sufficiently thick to provide desired properties.

However, no fear of a thickness of 15 microns is disclosed by Kudert; the disclosure of a thickness of 0.001 inch or less therefore includes a thickness of 15 microns.

Applicant also argues, on page 5, that Kudert et al do not disclose the content of talc, location of the layer, or type of talc.

However, the previous Action acknowledges that Kudert et al do not disclose the content of talc, location of the layer, or type of talc.

Applicant also argues, on page 6, that Fukui et al fail to disclose a molten material for co - injection, whether bleed - though occurs, and that Branch fails to disclose simultaneous co - injection and whether bleed - through or delamination occurs.

However, Fukui et al and Branch are cited only for teachings that it would have been obvious for one of ordinary skill in the art to have provided for the claimed amount and type of talc; furthermore, there is no teaching on Kudert et al that particular amounts or types of talc create delamination or bleed - through or prevent co - injection.

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
